PARIS.—The outstanding fact in French politics today is the personal popularity of General de Gaulle. His position was fortified in the recent elections when, despite the Communists' campaign to the contrary, the French voted overwhelmingly, as they did in 1936, in favor of him, in favor of limiting the sovereign power of the newly elected Chamber.

De Gaulle has, moreover, emerged with added strength from the election.

CHURCHILL crisis which followed the elections. Although the Communists were the largest party in the new legislature, the Ministries of War, Foreign Affairs and the Interior, three of the most important posts, they would not enter the government unless they receive one of these posts. At the same time, the Socialists insist that they would not enter any government.

## Many Projects Way Cleared For Extensive City Building

Report of all building work by the Dominion government will open the way for a pent up reservoir of industrial, commercial and residential projects to be stimulated by contractors and architects to run into several millions of dollars, it was revealed yesterday.

The SPEECH at which this construction will get under way will be made by Prime Minister Mackenzie King in his speech to Parliament on Dec. 10. The bill, containing building materials supply, one contractor stated. He said there are hundreds of small projects of large, that he was waiting for the green light from Ottawa. However, it will be some months before massive building manpower is fully available.

Three of Edmonton's packing plants are planning extensions which will run well over the million-dollar mark. A large number of other projects have been stimulated by contractors and architects to run into several millions of dollars, it was revealed yesterday.

THE SPEED at which this construction will get under way will be determined by the amount of building and building materials supply, one contractor stated. He said there are hundreds of small projects of large, that he was waiting for the green light from Ottawa. However, it will be some months before massive building manpower is fully available.

Urge consideration is being given to Dominion plans to move its headquarters to Ottawa. Major Alinay, who has been in the service of Prince Philip, the Duke of Kent, in a telegram received by Major Alinay it is stated that his request to remain turned over to Brig. Gen. C. G. C. Moore, general of real estate, department of reconstruction, "who is giving the matter his full attention."

Major Alinay asked that the 100 units made available to the city at that present time be moved to Ottawa, he said, it would be possible to house approximately 50 families in the structure.

## SC League Opens Annual Convention

CALGARY, Dec. 5.—(CP)—Eleventh annual convention of the Alberta Society of Canadian Engineers opened here this morning with delegates in attendance from all ridings in the province.

The delegates were welcomed by Mr. A. D. Foster, M.L.A., and Ivan Cash, M.L.A., of High River, and N. R. James, M.L.A., of Edmonton, respectively.

THE PRESIDENT'S address was presented by Dr. J. D. Jorgenson, M.L.A., and the secretary-treasurer's report by Floyd M. Baker, M.L.A.

Reports on engineering movement and an address by Mrs. C. B. Wood, M.L.A., were slated for the afternoon session, while this evening a social program will be directed by Premier Ernest Manning and J. C. Landry, M.L.A.

## Princess Presents New Battle Flags

ALDERSHOT, England, Dec. 5.—(CP)—In portuguese ruler Princess Elizabeth, as colonel-in-chief of the 1st Battalion of the Canadian Scouting, yesterday inspected the company and presented five new flags to regiments of the Royal Canadian Armoured Corps in Europe since D-Day. The 1st Battalion is returning to Canada shortly.

## Might Decorate British Writers

LONDON, Dec. 5.—(CP)—British war correspondents may be given awards of honor for gallantry in action. The proposal, which yesterday the question of giving recognition was receiving "very careful" consideration, was planned case by a group which attempted to eliminate Hitler about the time

# All Building Controls Ended

## Construction Licenses 'Out' In the Future

OTTAWA, Dec. 5.—(CP)—Canada took another step along the reconversion road last night with announcement of abolition of construction control, the organization which held a tight rein on the Dominion's building in wartime.

"BUILDERS are no longer required to obtain construction control," Munitions Minister Howe said in making the announcement. "But he added, his statement with the warning that building materials still were in short supply and that there were still many projects which were not immediately required or which would not come cheaply."

Priority for veterans' housing are to be maintained to ensure their needs will be met first.

## At SC Meeting

## Federal Govt. Money Policies Are Attacked

CALGARY, Dec. 5.—(CP)—The federal government, in the interests of sound finance, is crucifying the economy, said Dr. W. G. Smith, design engineer, M.L.A., president of the Alberta Social Credit League, told the annual convention here that this is the seventh convention of the league to be held in continuous existence.

DR. CRERAR SAID the war should not be ready and if it might be too late to establish and train a new military force.

CREERAR, commander of the First Canadian Army in Europe, said, "The Canadian armed forces must be increased by compulsory training."

"All Canadians," he said, "will be called up to serve in the army, navy and air force." He said proudly when talking about the troops he commands.

He "DEFINITELY" will not enter politics," he told a questioner.

"I am the one group that can and will lead Canada out of the messes in which we find ourselves," he said himself.

CONDITIONS IN ALL the democratic countries are bad, he said.

People are allowing themselves to be stampeded into strikes and disorders.

The war was faced with problems of production and labor, but the powers that were using the same methods they did in war, he said.

He read in the press and heard on the radio "no wonder people are getting fed up with the government."

"We are the one group that can and will lead Canada out of the messes in which we find ourselves," he said himself.

DR. CRERAR SAID the war should not be ready and if it might be too late to establish and train a new military force.

CREERAR, commander of the First Canadian Army in Europe, said, "The Canadian armed forces must be increased by compulsory training."

"All Canadians," he said, "will be called up to serve in the army, navy and air force." He said proudly when talking about the troops he commands.

## Goering's Error

(Continued from Page 1)

weak at sea but said the Reich was ready for war if it should come and would be much stronger when that time.

**HE SAID THE JUNKERS** had just gone into production and would be very valuable in attacking Britain in an Atlantic shipping. Monthly production of the bombers was expected to reach 280 planes by autumn and 350 by the end of 1946.

Goering's examination of Germany's military position was the concluding evidence presented by Sidney E. Alderman, the American prosecutor, who wound up presentation of evidence concerning German aggression against Czechoslovakia.

**HE PRESENTED EVIDENCE** that Adolf Hitler and Goering were best friends. Dr. Emil Hacha into surrendered Czechoslovakia by threatening to burn Prague and invade the country.

They threatened Hacha so violently during the conference at Hitler's residence in Berchtesgaden on May 15, 1938, that he fainted. He was revived by physicians whom Goering had ordered to wait outside the conference room.

**MINUTES OF THE meeting** disclosed that Hitler told Goering he was a "fool" and added that the Germans would not have an entire division against every Czech battalion if the Czechs forced them to fight.

"THE FUHRER STATED that his decision was irrevocable and it is well known that the decision of the Führer means the decision is said."

The American prosecution presented its evidence of the Nazi moves to smash Czechoslovakia for forcing over the case to the British.

Evidence disclosed that the Hungarian government led by Admiral Miklos Horthy, played hard in giving way to Hitler's demands to assure Czechoslovakia would be followed by the big blow on Saturday.

Horthy added that he would always remember this proof of friendship.

Hilter then said: "Dr. Joachim Tissier, the German Minister of the chancery and son of the founder of the Siemens Company,

**IF THIS DIDN'T TURN** over Slovakia without a fight, Hitler said he would leave the war to the Nazis.

In the early morning of Saturday, Hitler and his Hungarian troops were moving on the Slovenska.

**IF THIS DIDN'T TURN** over Slovakia without a fight, Hitler said he would leave the war to the Nazis.

On March 16, Hitler declared that Czechoslovakia must cease to exist as a state. He sent troops into the country—already shrunken by the Nazis—and demanded that the Czechoslovakian government be moved to part of Czechoslovakia, became a republic under German protection.

## Lang Death

(Continued from Page 1)

time in history that brothers had contemporaneously filled the roles of leaders of the Church of England and the Church of Scotland.

Lord Lang died at the time of his death.

In 1938, Lord Lang and the Archbishop of York declined an invitation to St. James Palace to dinner at which Prince Simeon was to be present.

**IT WAS LATER** reported that Dr. Lang had been invited to the communion from Edward and that the King replied: "Please remember that I am the head of your own garrison."

On Nov. 17, the Archbishop pre-  
sided at a secret meeting of the House of Lords. Lord Lang and the Archbishop of Canterbury signed the Royal Charter. On Dec. 10 Edward died.

Lord Lang served as Archbishop of Canterbury for 13 years and as Ambassador to the Pope.

AS A CHURCHMAN, Dr. Lang worked diligently for the interests of the "Average man," attempting constantly to bring the church closer to what he called the "frontiers of responsibility of the church" and the masses.

Throughout his vigorous career Dr. Lang was known as a diplomat of the first rank. In his two archbishops he had a special place in the House of Lords, where he was regarded as one of the most influential members.

Dr. Lang was the fifth Archbishop of Canterbury. A native of Scotland, he had been born in Dundee, in 1864, the son of Very Rev. Marshall Lang, DD, principal of Queen's University and at one time moderator of the General Assembly of the Church of Scotland.

**HE WAS EDUCATED** at Glasgow and Oxford Universities, graduating with a Bachelor of Arts degree from Balliol College, Oxford, in 1886.

He was a fellow of New College, Fellow Soc., retired and Dr. Lang, then Archbishop of York, succeeded him as Archbishop of Canterbury and Primate of all England and Metropolitan.

## King and Queen Attend Memorial

LONDON, Dec. 5. (Reuters)—The King and Queen attended a memorial service in St. Paul's Cathedral for the Royal Artillery Regiment, whose casualties included 300 officers and men killed during the war.

(Continued from Page 1)

affairs and military government at the Royal Military College at Kingston.

A hurried call from England in May of 1944 for officers trained in anti-aircraft gunnery and anti-submarine and civil affairs meant that he was flown to England. Preparation were then being made for D-Day and he was told when he was there that this was the case.

He was promoted to major on his arrival and soon came home.

**AFTER D-DAY** he went to North Africa with the headquarters of General Sir Alan Brooke, Commander-in-Chief of the British Army. Later he went to the American 8th Armored Division with which he was associated throughout the campaign and was promoted to captain.

He was then sent to Sicily and Italy, and was a member of the staff of the 1st Canadian Corps.

**IN SICILY** he was with the civil government detachment members in time that they were surrounded so they turned around to make their way back to the Americans.

He followed the victorious armies on their way to Germany, all the time taking part in civil administrative work.

**IN GERMANY** he was with the civil government detachment members in time that they were surrounded so they turned around to make their way back to the Americans.

## Edmonton Bulletin

ALBERTA'S FIRST NEWSPAPER

Founded in 1880 by Hon. Frank Oliver  
Published every afternoon except Sunday by the Alberta Free Press Limited at The Bulletin Building, Jasper Avenue, Edmonton, Alberta, Canada.

CHARLES E. CAMPBELL,  
Owner and Publisher.

Subscription price Dollars 1.00 per year; 25 cents per week. Daily, \$1.00 per Canadian copy, postage paid; one year, \$7.00; 6 months, \$4.00; 3 months, \$2.00; Saturday only by mail in Canada, except British Columbia, \$1.00 per year. Daily by mail to U.S.A., \$12.00 per year.

Eastern Canada Advertising Representatives, Edward G. Bailey, 45 Richmond Street, W., Toronto, Ont.

Member of the Canadian Press. The Canadian Press reserves the right to accept or reject publication of all news dispatches credited to it, and also to The Associated Press in this paper, and also to other news published therein. All rights to reproduction of special dispatches herein are also reserved.

### The Only Wealth

At the recent annual meeting of the Bank of Montreal, President George C. Spinney said this among other admirable things:

"... life on this planet being what it is, someone has to plough and reap, to plan and build, to exercise qualities of initiative, foresight and daring; and if this totality of productive effort can provide the means for living hand to mouth and economic progress, then let us do it."

It is pleasant for The Edmonton Bulletin after many years of endeavoring to establish the fundamental fact that production is the only source of wealth, to have its opinions confirmed by a national figure no less distinguished than the president of the Bank of Montreal.

### Protective Regulation

Legislation now going through parliament will give the government or parishes to secure permission from Ottawa before starting to canvass for funds which to build a war memorial.

At first blush this looks like interference with the right of a community to erect whatever type of memorial the constituents may choose or desire. But that is the case. Les Callan has enhanced an already fine prestige with this magnificent collection compressed within 126 generous pages.

General Yamashita has added his testimony that the Japanese high command paid no attention to the rules of war or to what was right when they set out across the path of their doom. He says, was responsible for the massacre of 60,000 Filipino civilians in the last months of the occupation. This may not clear Yamashita, but it sounds plausible. At least he is not likely to have owned up to the butchery without knowing that headquarters wanted him to.

The legislation is in point of fact protective. Administered with sense it will protect the public from being asked to contribute money for memorials without knowing what these are to be like, and will prevent flagitious and unnecessary promotions from putting memorials of undesirable types or inferior workmanship.

No war memorial should be built in Canada unless it is worthy of the cause and appropriate to the purpose. That must be assumed to be the case in requiring that permission be obtained before any memorial funds are collected.

### Why Not Get Together?

Hon. J. A. Glen told parliament that to build a plant capable of extracting 10,000 barrels of oil per day from McMurray tar sands would cost \$25,000,000—of federal money, since private investors are not interesting themselves in such projects.

The development of this resource is a case of public expense which is not necessary. For whatever reason private enterprise is not tackling the job, and it is case decidedly worth doing. Presumably doubts still exist as to whether a workable method has been found for extracting the oil in commercial quantities. The research work necessary to find such a method will in any case have to be carried on at public expense.

Since the Provincial Government is also interested in the matter, there would be little if anything to be gained by itself with the province and supplied a proper share of the cost of carrying those operations to a conclusion. To build separate plants, conduct separate experimental work, would mean duplicating expense in a possibly rivals.

The two governments between them have or can get all the information that has been gathered in twenty years or more of investigational work. There would seem to be an opportunity, and a duty as well, for them to join forces in an all-out effort to turn this great resource to account.

### Food Security

When for many years a drug on the market has suddenly become the world's most sought commodity, as Hon. MacKinnon says the demand is "tremendous" and that Canada cannot fill the orders which are pouring in on the Wheat Board.

Two questions arise: why the orders came in, and why they are being hampered by winter conditions and that long-standing wheat surplus is diminishing to the point where some regard has to be paid to home requirements before another crop comes in.

One of the lessons taught by the war is that the world needs a wheat band as a security against unforeseen shortages in one area or another. Perhaps we shall not have another global war, nor another war fought on fields where wheat is ordinarily grown. But there will regional droughts, and crop failures, creating unusual needs for which there should be somewhere a substantial reserve.

Wartime was not the only occasion when hunger has kept millions of people into the ground. The famine which could have been saved if there had been ample stores of wheat somewhere in reserve, and some workable financial arrangement that would have started the grain moving promptly into the starvation zone.

The United Nations Organization is pledged to efforts to make the peoples of the world happier and more contented, as well as to preserve them from war. That

purpose would be served greatly and greatly if the Organization divided the world which it would share the cost of carrying large reserves of wheat in the most producing countries, available at all times at reasonable prices to people in any country where famine conditions may threaten.

What would be the lot just now of people in Britain and on the continent of Europe if it had not just "happened" that Canada had such a reserve on hand when food supplies ran out in the eastern hemisphere? The world is a great financial bank, but it is far from, and is not safe, to expect the large producing countries to always carry security reserves at their own expense.

### The Human Touch

One of the things which make war tolerable to people of the British race, no matter how bitterly distasteful it may be, is their ability to weave the golden thread of humanity through the web of horror. And the fact that our boys maintain their human touch throughout all the grimness of conflict is both attested to and contributed to by the artistic activities of such men as Lieutenant Les Callan, of Canadian Forces Broadcast Service, cartoonists, who went overseas to record his impressions, in black and white, of the human side of the unparalleled drama.

Les Callan, now back in civilian life, has collected the drawings made by himself in England and the war, and has had them published by Longman, Green and Co., of Toronto under the title "Normandy and On."

It would be trite to say that these drawings, and others like them, were the residue of some time after the actual taste of war is washed from our mouths. But that is the case. Les Callan has enhanced an already fine prestige with this magnificent collection compressed within 126 generous pages.

General Yamashita has added his testimony that the Japanese high command paid no attention to the rules of war or to what was right when they set out across the path of their doom. He says, was responsible for the massacre of 60,000 Filipino civilians in the last months of the occupation. This may not clear Yamashita, but it sounds plausible. At least he is not likely to have owned up to the butchery without knowing that headquarters wanted him to.

The legislation is in point of fact protective. Administered with sense it will protect the public from being asked to contribute money for memorials without knowing what these are to be like, and will prevent flagitious and unnecessary promotions from putting memorials of undesirable types or inferior workmanship.

No war memorial should be built in Canada unless it is worthy of the cause and appropriate to the purpose. That must be assumed to be the case in requiring that permission be obtained before any memorial funds are collected.

Officials of the Dominion department of agriculture are telling farmers to sow as much land as possible in order to meet the export demand from the United States and to check the decline in hog production. They advise sowing about the same acreage as this year to wheat and oats though the yield per acre is down from last year. The wheat yield is down 144 million bushels, for reasons indicated by the lower average return per acre since 1937. For similar reasons the oat crop shows a decline of 11 million bushels.

With average yields, are sown on counted on to meet the demand, without more acres sown to wheat and oats.

### Looking Backward

From The Bulletin File

#### 1885: 60 Years Ago

A meeting of the Edmonton Literary Society was held at the house of Mr. and Mrs. J. A. M. and A. M. Federal government departments, crown companies and municipalities had agreed to fix their bids at dealers' prices. Municipalities and publicly owned institutions are said to be selling prices less than dealers' prices. The School Board is taking care of painting and recontracting.

"The ceiling on all vehicles," said Mr. Peterson, "is established in accordance with the motor vehicle act, and the maximum price is \$300. The maximum price is \$300, income \$60,570. The assessment on account of the Public School is \$878,543, and for the Separate Schools \$1,000.

Ottawa—Clarke Wallace may resign before 24 hours are over. He has a row with Haggard and Montague over North Ontario. Wallace does not want to be put in a position of non-interference, if not the Orangemen will support the Particular candidate, who is a Conservative and Orangeman. Wallace has got to be whipped into line or kicked out.

#### 1905: 40 Years Ago

The CNR telegraph line is expected to reach this summer.

The Grand Central hotel, owned by R. Mai, has been purchased by Robert Inglis.

#### 1915: 30 Years Ago

Had a bomb from one of the enemy's Taxis been dropped on the Civic block yesterday it would have come no more unexpectedly than did the notorious bomb at the Stock Exchange.

All forces in Serbia reported returning to occupied camp at Kavala.

#### 1925: 20 Years Ago

Mercury on Sunday stood 32 above at Edmonton, the warmest day of this for 10 years.

The Canadian Council of the Canadian Congress urged adherence to the world court.

Vice-President Hungerford, in a letter to Maynard, said the Canadian government had no objection to the new station in Edmonton.

#### 1935: 10 Years Ago

Gibraltar—Hon. Sir Peter Underhill, including the battle cruiser Hood and Renown, ordered to sea from Gibraltar as Italian tension increases.

Montreal—Hon. William Aberhart, premier, and Hon. W. L. Stevenson, minister of finance.

A. F. Alexander, minister of public works, arrive here to discuss Alberta's financial situation with bankers.

Waterworks department, to receive appointment as third city commissioner.

Calgary—First labor census held by Prime Minister Michael J. Savage, who is also minister for external affairs and for native affairs.

D. Gordon Gray elected head of the Edmonton Academy of Medicine.

Montreal—Gordon Cleated, president of RWMPA, veterinarian.

Toronto—Premier Mitchell Hepburn leaves for the Dominion-Provincial conference with four of his cabinet members to bathe for a publicity-wanted bank for Canada.

Knowledge puffeth up, but charity edifieth.

—Corinthians 8:1.

### War Expenditures Committee Is Queried on Disposal of Surpluses

And Harassed Officials Tell of the Million Dollar Headaches They Have Fallen

Heir to With the Cession of Hostilities in Europe and the Far East

By Chester Blum

OTTAWA—Dealers in surplus military trucks and passenger cars are asking for a grant of \$100 per vehicle but must recoupment and repaint them and pay all handling and transportation charges is one of a host of interesting facts brought out at the session of the war expenditure committee.

Dealer's margin is as follows: On conventional type trucks and passenger cars:

Celling Dealer's margin  
\$250 to \$300  
\$250 to \$300  
\$274 to \$300  
\$70 to \$90

On heavy-duty trucks and passenger cars:

Celling Dealer's margin  
\$300 to \$350  
\$300 to \$350  
\$320 to \$350

Dealers are asking for allocation to all branches in sufficient quantity to allow the branch to cover its territory adequately, national distribution must be maintained, and enough, distribution must be made to the branches nearest to the source of the territory where the best or most logical market is located.

The quantities must be large enough in national market to allow a fair percentage of sales to be made in each branch.

Wholesalers divide the goods among distributors on a fair percentage basis, and dealers divide the vehicles in similar or associated items.

Five selling regions have been established: British Columbia, the Yukon, Northern Quebec and the Maritimes.

The necessity of having a minimum all day for delivery to dealers is also being considered.

Mr. Peterson, in his statement, said attention was given to a statement previously made at another session that trucks were to be sold instead of being sent to dealers.

He said the corporation had been advised to sell the vehicles to dealers.

Mr. Alexander, in his report, said that dealers' names were placed in a hat and the winner was the first name drawn.

He said that this was the case even for big trucks, the four-wheel drive type.

For example, farmers, the 140 weight (medium) trucks were half the weight of the 180 weight.

Mr. Alexander said that dealers' names were placed in a hat and the winner was the first name drawn.

# The Bulletin's SPORT SHOW

By Jack DeLong

**TO THE** 5,400 fans who howled their delight as Edmonton Flyers humbled Saskatchewan Elks 6-1 at the Arena Saturday the tidings from the hub centre of Saskatchewan on last night's senior hockey engagement is almost shocking.

No sire, my hearies, that 3-2 defeat of the Elks by the visiting Flyers helped the digestive processes of the fans around and about this town. No siree!

Elks didn't look like a team that could come even close to beating the Flyers again, if further need is provided. That nice ice hockey is a mighty simple game, you know, and when you're eating your chicken before incubation is completed you may have little interest in the game.

Perhaps you've noted the phenomenon but if you haven't it is in evidence now that the senior hockey agreement this season to date has skated all the time. It's just a wimpy little wimp of a season, I mean, and under their belts. It always takes a tough spot to win a hockey game.

**JOHN DUCEY**, who does a pretty shiny job of running the show off the ice in our town, is feeling pretty good about the options taken by Seattle Rainiers of the Pacific Coast League. The Rainiers, the two Edmonton junior league pitchers, Lee Doucette and Mike O'Neill,

are both expected to be signed by Ed. Kolb, who covers the whole wide dominion as a scout for the Seattle franchise. Kolb was immediately interested.

Doucey is certain Seattle will get some very good players to come down in the Edmonton youngsters. Both had great records here in Junior circles and now need more schools and experience and they'll get that from now on.

**EDMONTON JUNIOR** Canadians did not fail their admirers here in their first exhibition tour of the exhibition tour of the Pacific Coast, winning the first of a three-game series against the Clippers last night by a 4-3 count.

Canucks were much smoother in passing and shooting than the Clippers and lost only one game during the series while the Clippers won two straight games.

**THE NEWS THAT** Dr. W. G. Hardy will try to persuade CAHA bigwigs to stage at least one game of the national final in Edmonton next spring is in line with the trend.

Bud McPherson Second

## Leafs' Jimmy King Tops Junior Scorers

### Top Point-Getter

Jimmy King, a "worrying" thing for opposing goalkeepers, is setting a new pace in the City Junior Hockey League scoring race and today tops the pack with 17 points, as shown in the first official statistics for the 1946-47 season, compiled by Stan Morgan, official timer.

King, however, is closely pursued by Eugene Red Bell McPherson, who has 16 points, and who packs a bullet-like shot, and Jack McMurtry, cagey Edmonton Athlete Club center, with 14 and 13 respectively. Next comes John Rypien of the league-leading Canadians with 13 points.

King's total is made up of 11 goals and 6 assists, while McPherson has four for four games, but McPherson is the leading goal-scorer with 12 goals.

McMurtry has nine goals and five assists and Rypien has the same number, plus four assists.

Bill Gordan, who is leading in defense, heads the rear-guards in the scoring column with 10 points, four more than his blue-line mate, Rypien.

The King-McPherson-Thomas line of Maple Leafs is the top scoring line in the league, the four circuits with a total of 30 goals better than 10 per game. Mike Thomas, right winger, has nine points, while Louie Lortie, who is all but 10 of the Maple Leaf goals so far, has 13 more points than Canadian's best each club has played in four games.

Following are the leading assistors:

	G	A	Pts
King, Leaf	11	6	17
McPherson, Leaf	6	10	16
McMurtry, E.A.C.	5	14	19
Rypien, Can	5	8	13
Gordan, Can	3	10	13
Thomas, Can	2	10	12

Total, E. Side	10	10	20
Total, All	110	110	220

**YMCA Undefeated In Cage League**

YMCA Tollers maintained their unbeaten record in the City Junior Boys' Basketball League by trouncing South Edmonton squad 41-34 yesterday. Westgate team, too, went to victory with 18 points.

In the second game of a doubleheader, the Tollers gained a tie with the Junior Hawks League lead last night by defeating Washington Line, 5-3.

**CURLING**

WASHINGTON, Dec. 5.—(CP)—Philadelphia Falcons gained a tie with the Eastern Hockey League lead last night by defeating Washington Line, 5-3.

**YMCA Tollers**

McDonald, Chinnex, Baker, Hart, Morris, Dillen, Haines, Alsworth, Steller, Robertson, Shaant, Bill, W. Johnson, McCall and Blance, Coulter, Fife, Fender, Howes, Koenig.

**SUMMARY**

Second period—Red Deer, Answirth, 13; Stettler, 10; Red Deer, 10. Total, 33. Periods—Red Deer, Howes, Answirth, 16; Stettler, 10. Red Deer, 10. Home team won.

**Believe It Or Not**

By Robt. Ripley

Douzietch and O'Neill

**Seattle Obtains Options On Two Edmonton Pitchers**

By Oscar Fraley

**Today's Sport Parade**

**NEW YORK**, Dec. 5.—(UPI)—Stout Steve Owen was a happy man with a broken heart Tuesday. Half of Steve's 225 pounds was delighted because his New York Giants had beaten the favorite, the Boston Red Sox. The other 112½ pounds were sorry because of the effect his triumph had on the fortunes of gray-haired Greasy Neale.

When you talk about Owen and Neale, coach of the Eagles, it's along the lines of referring to Damon and Pythias, Amos and Andy or ham and eggs. They're not the same, but they have reacted to Pythias, Andy or eggs the way Steve did to Grease on Saturday night. They never have remained synonymous.

**OFF THE FOOTBALL** field they are as inseparable as oil and water, particularly in the bass traps. Greasy, being a dally Dandy, will be at the two dollar comb box office to see the show. And, but when they leave the gate he'll right beside Owen's seat.

But across the middle of a football field they act like two determined damsel in distresses. One is the giant and the other is Steve. Doesn't my, a very fast mouse.

Greasy found out that once again he was flying along at the top of the eastern division of the National League in a race with the Boston Red Sox. Then along came Steve, the man from Oklahoma whose avoidable rounds of bounces, jolts and bounces took the Red Sox down to the Eagles down.

IT WAS JUST one of the many who were surprised to see game time and again its utter honesty. Everybody ever had a right to lose a game, and no individual victory can be denied. Steve had it with only one game remaining for both Washington and Philadelphia. Once he took the field he'll come home body.

That is, but if Philadelphians die in the Boston Yanks in the Quaker City this week, Washington will win its remaining game. But the last two weeks have been the clincher and face the Cleveland Rams of the western division for the league crown.

Grease reluctantly admits it looks hopeless.

"This surely settled it," he said. "The daily double player moused after Owen's sets had roared up from be-

**GIRLS**

"But everybody collects SOMETHING. That's it just happens that my hobby is collecting bills!"

**Pringle Nets 3 As Vancouver Wins Hollywood**

VANCOUVER, Dec. 5.—(CP)—

Playing without their top forward, the Vancouver Canucks and Hollywood Wolves tied 1-1 in a Pacific Coast Hockey League game here last night.

**BUT, AS THE EYE** doctor puts it, we shall see what the eye sees.

Their eyes are probably hot. They have the incomparable shiny Sammy Baugh of the bugs by arm, and Sticky Steve" Bearup of the magnetic fingers.

They also have more, more, more to prove than Steve's New York Giants.

The Giants, off their record, should be dazed as much trouble. But they have two rosin-ups to their credit this year, one from the West and one from the East, leading the western division, and the other over the Eagles. And some day they may even be scanned for talent for the first time in the history of the game south of the border.

**DOUGZIECH AND O'NEILL** make three potential Edmonton contributions to the Seattle "Ringers," as the team is now called, after a six-month absence two months ago.

This is the Edmon ton Junior Baseline, which has been around after three years of inactivity, under the energetic guidance of President Phil Horn, takes on a new life.

Youngsters performing in the circuit now really have something to live for.

Dougziech stands six feet one inch off the mound, weighs 186 pounds, has a 100-mile-per-hour fastball.

O'Neill, 18, is not so tall, five feet nine inches, but weighs 186 pounds, has a 95-mile-per-hour fastball.

Others—Tug O'Neill, Innesman—Lulu Lomax, etc.

Recalls "Old Players"

**"Big Four" Hockey Circuit Forecast for North Ontario**

BY ALAN HARVEY

TORONTO, Dec. 5.—(CD)—A new era of hockey interest in Ontario north country, with Sault Ste. Marie, Sudbury, Timmins and Kirkland Lake joining hands in a "Big Four" possibly within the next two years, is likely to be most significant development of the winter sports in the region.

**WITH NEW RINKS** a distinct possibility in Sault Ste. Marie and Sudbury, Silvermen sees no reason why four teams could not maintain in the near future. Sault Ste. Marie will play in January on a \$40,000 community centre, including a rink.

The anticipated boom must set northerners to clinging about the great northern lakes. The Sudbury Greyhounds and Sudbury Wolves, rugged, blood-spilling goaleats' stuff, are the two best teams in the north who sprawled on rafters if necessary to watch the heavy action.

**IT WAS THE ERA** of players like Al MacInnis, Gordie Howe, Rathechild, Art Duncan, Flat Walsh, Stan Brown, Bill Phillips, Bill and Bill Cook, Fred and Red Sharpe and his brother Shorty, the 138-pound defenceman who deserved the name as the toughest he ever experienced.

Teams from the north won the Allan Cup three times during the 30s, 40s and 50s. In 1924, Sudbury Frost Tigers and Kirkland Lake Blue Devils did it in the next decade—and it would be a rich con-

**With The Pin Busters****Clarence Moher Is Doing Fine Job Coaching Royals**

NEW WESTMINSTER, B.C., Dec. 5.—Clarence Moher, 36, a well-preserved old pilot of New Westminster Royals of the Pacific Coast senior hockey league, is proving Edmonton youngsters will be appearing in the box scores of world series contests.

At any rate two young chaps, Tom Lee Doucette and stocky Mike O'Neill, sticking stars with Arrows in the Edmonton junior division, are starting up that long, hard road that may lead to the summit of diamond greatness.

Since British Columbia club of the Pacific Coast League, now bidding for major league classification, has no room for young amateurs to optional agreements, under such agreements the youngsters will be available via Seattle if and when their ability warrants the leap to the minors.

Highly regarded baseball club of Canada, however, is doing fine building for major and juvenile teams at Edmonton to keep the boys from leaving.

**JOHN "LEFTY" DUCY** builds unimpressive, hocky boaster and all-round spartan, recommended the like of him to the Royal Scout chief scout in Canada for Seattle.

Doucette and O'Neill, it is admitted, are possibly two or three years from professional ranks, but they possess many qualifications that appeal to Scott Kelly.

Mother WHO DID his best coaching with Midget and Juvenile teams at Edmonton to keep the boys from leaving.

Seattle's action in signing the Edmontons' two stars is a good omen for the future of the game south of the border.

**DOUGZIECH AND O'NEILL** make three potential Edmonton contributions to the Seattle "Ringers," as the team is now called, after a six-month absence two months ago.

This is the Edmon ton Junior Baseline, which has been around after three years of inactivity, under the energetic guidance of President Phil Horn, takes on a new life.

Youngsters performing in the circuit now really have something to live for.

Dougziech stands six feet one inch off the mound, weighs 186 pounds, has a 100-mile-per-hour fastball.

O'Neill, 18, is not so tall, five feet nine inches, but weighs 186 pounds, has a 95-mile-per-hour fastball.

Others—Tug O'Neill, Innesman—Lulu Lomax, etc.

# The ROAD AHEAD

By Capt. HARPER PROWSE, M.L.A.

EVERY time there is a complaint about the rate at which our troops are being repatriated from Europe, the war department officials scuttle for cover behind the "no shipping" smoke screen. As soon as the smoke starts to clear they come out with the names of big ships and impressive looking figures to try to make the public believe that everything possible is being done.

AT PRESENT time there are six liners engaged in bringing Canadians home from Europe. They are the Queen Elizabeth, with a winter tonnage of 12,000; the Empress of Scotland, with a capacity of slightly more than 4,000; the Monarch, with a capacity of 6,000; and the hospital ships Lady Nelson, Lady Rodney and the Queen Mary, with a capacity of 8,000. The HMS Pansher, the escort carrier which carries about 800 trip.

It will be noted that both the Queen Mary and the Empress of Scotland are now carrying 12,000 tons of troops, the Empress of Scotland, with a capacity of slightly more than 4,000. Monarch, with a capacity of 6,000; and the hospital ships Lady Nelson, Lady Rodney and the Queen Mary, with a capacity of 8,000. The HMS Pansher, the escort carrier which carries about 800 trip.

It will be noted that both the Queen Mary and the Empress of Scotland are now carrying 12,000 tons of troops, the Empress of Scotland, with a capacity of slightly more than 4,000. Monarch, with a capacity of 6,000; and the hospital ships Lady Nelson, Lady Rodney and the Queen Mary, with a capacity of 8,000. The HMS Pansher, the escort carrier which carries about 800 trip.

The AMA Serves You Every Day  
For Your Own Safety  
Watch the Signals

You are responsible for your own safety when you disregard the safety signals at intersections. Go on the green light, stop on the amber and red. The lights are there for your protection—pay attention to them.

## ROAD REPORTS

Roads in almost all districts are still in good shape with the exception of some spots in the north country. Roads at Peace River and Fort Chipewyan are still bad, and the side roads at Fort St. John are in the same condition.
